Empowerment means letting go of the authority to make certain decisions. This is good management practice but also about facing reality - that modern employees won't accept jobs where they have no say in their day to day decisions.

Empowerment can be difficult to implement, however, because it requires changes in thinking and in responsibility for management, who may be reluctant to make the changes needed. Empowerment has the capacity to bring about major changes in the roles of every key player in a business, and ultimately leads to the emergence of a new organization. This book examines the implications for empowerment at every level, including such issues as training, career paths, company communications, and the ability to respond to the demands of the beyondthederby.com: David Jenkins.

Empowering is a process of giving power to people. This process will help people to improve their self-reliance feeling and prevail on inability and distress of oneself. Empowerment is based on the idea that giving employees skills, resources, authority, opportunity, motivation, as well holding them responsible and accountable for outcomes of their actions, will contribute to their competence and satisfaction.
